

FIRST STEPS WITH EDUBASE

Mobile App

How do I read my e-books?

You've got two options:

1 Create a personal account

- You only have to enter the code once.
- Your e-books are always saved on your account and computer.
- You can't lose your books.
- You can do text markups.

2 Read e-books without signing up

- You have to enter your code every time.
- If you lose your activation code, you need to buy the e-book again.
- You can't do text markups.

We recommend creating a personal account

Open the Google Play Store app on your tablet or smartphone. Search for "Edubase Reader" and download the app.

In the app: Click on the account icon in the top left-hand corner. Click on the three dots on the right and select "Account".

Enter your email address. You can use your personal or your school address. Set a password.

You can also use your social media login (e.g. Office 365, Facebook) instead.

Make sure to remember your login data.

Click on the three dots on the right. Select "Product Activation". Enter your activation code.

Library

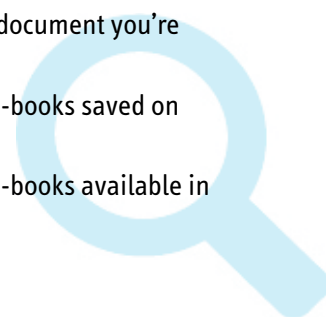

This is where all your e-books are displayed.

- Click on **i** to see information about the book.
- Click on **Load** to load the e-book.
- Click on the **cover image** to open the e-book.
- **Tag icon:** Click to sort your e-books by categories.

Read Mode

Three options to search within the e-books:

- Search within the document you're currently reading.
- Search within all e-books saved on your desktop.
- Search within all e-books available in your library.

Highlight by keeping your finger pressed on the text

- Highlight the text **with color**.
- **Make annotations*** – add a note, image, link or audio message.

* Markups with files attached are called **annotations**.
