

## Thank you for choosing Edubase!

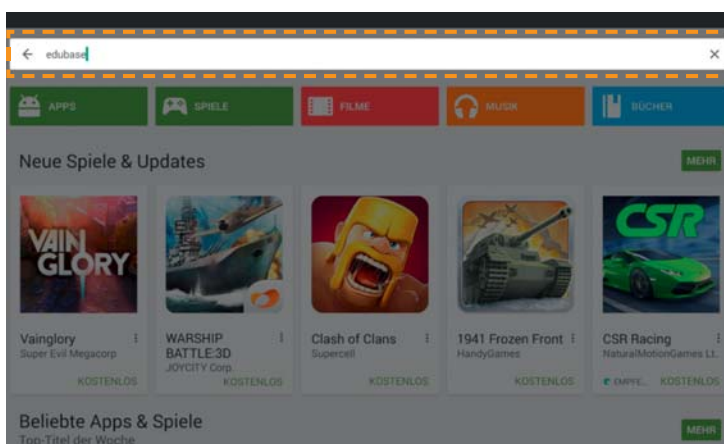

With **Edubase** your books are always synchronized and available on your tablet, smartphone or computer. You can use any of your devices to perform a search, add highlighting and comments or link background information. Furthermore, the fast and intelligent search function integrates Wikipedia and Google. Thanks to all this, you can work perfectly with your digital contents, independently from where you are.

## Edubase App Download - Android tablet and smartphone
